Choose Detecto's Wheelchair Scales for Your Convenience and Patients' Safety

Detecto's wheelchair scales make weighing patients quick and effortless. Built for use with any standard size wheelchair, these scales offer comfort for patients, convenience for nurses.

Detecto's sturdy design incorporates a standard eye-level physician scale with a detachable ramp, allowing for easy movement on and off the platform.

The scale's beam is readable from both sides, facilitating a faster weighing operation. Available in pounds or kilograms.

The ramp kit is detachable so it can be used as a stand-alone physician scale or attached to any existing Detecto physician scale. Ramp only weighs about 25 lbs.

Detecto's clinical scales have long been known in the industry for:

- **Accuracy**
- **Largest service network in the clinical scale industry**
- **Heavy-duty understructure**
- **Die-cast, easy-to-read beam**
- **Factory assembly of all sensitive parts**
- **Interchangeable factory parts**
- **Competitive pricing**
