

CPWplus Platform Scales

The CPWplus series of scales offers an extensive range of models and configurations to accommodate a variety of applications. Choose the basic CPWplus for compact portability, the CPWplus-P version with pillar mounted display, the CPWplus-M or CPWplus-L for large platforms, or the CPWplus-W with handlebars and wheels. Simple operation, a selection of platform sizes, battery and AC operation, and rugged construction all combine to make the CPWplus truly a great value in this industrial range.

With over 35 years of experience in the production of industrial scales and balances, Adam supports its customers with top rate service to achieve the best possible customer satisfaction. Adam Equipment offers the perfect balance of dependability and performance with every product we produce.

PERFECT BALANCE
Speed, Performance, Value

Highlights

All CPWplus scales utilize the same versatile indicator which features 4 weighing modes (lb, kg, oz, lb:oz), a crisp backlit display, color coded buttons with positive click feel, and simple, quick operation. The indicator can be mounted where you need it: on the scale, on a wall, or seated on a desk giving total flexibility for the best viewing position.

A bi-directional RS-232 interface allows connection to printers or computers. Using standard commands users can request gross, net and tare weights be sent automatically. The optional Adam data collection software collects scale data and can produce charts and statistics, or export raw data to Microsoft® Excel or Word for further analysis.

With the right power options the CPWplus lets you work where you need to. The basic CPWplus and CPWplus-P run on 6 x AA batteries. CPWplus-W, -M and -L offer rechargeable batteries with over 60 hours of use before needing to be recharged. To save battery life, the backlit display can be set to always on, off or automatically on for 10 seconds when a weight is placed on the platform.

General Features

- Battery and AC operation
- Crisp backlit LCD
- Removable stainless steel platforms
- RS-232 interface
- Display Hold function
- Dynamic weighing
- lb, kg, oz, lb:oz

CPWplus-M

Features

- 19.7" x 19.7" stainless steel platform
- Adjustable non-slip feet for leveling
- Rechargeable battery pack and AC adaptor both included

CPWplus-L

Features

- 35.4" x 23.6" stainless steel platform
- Adjustable non-slip feet for leveling
- Rechargeable battery pack and AC adaptor both included
- Wheels and handle
- Optional rubber non-slip mat

CPWplus and CPWplus-P

Features

- 11.8" x 11.8" stainless steel platform
- Alkaline battery or AC operation
- Pillar included on -P version
- Optional carrying case

CPWplus-W

Features

- 19.7" x 19.7" stainless steel platform
- Handlebar frame and wheeled base for mobility
- Rechargeable battery pack and AC adaptor both included

Applications

For field applications like concrete testing where portability and durability are a must, the basic CPWplus with battery operation and optional carry case is ideal.

For testing in the laboratory or on the factory floor, the CPWplus-M, -L and -W larger bases are durable and provide greater weighing area.

All models are well suited for shipping and receiving applications. As your operation grows the scale can be integrated into dispatch systems with the standard RS-232 interface.

In the warehouse or in production, take the CPWplus-W anywhere with its internal rechargeable batteries, a handlebar frame and wheels.

For food processing or agriculture the stainless steel platforms are removable for easy cleaning. In the doctor's office or at the vet's, these platforms combined with the dynamic weighing mode and mountable indicator make this series extremely versatile.
