## ULTEGRA® MAX PARCEL SHIPPING SCALE

Fairbanks' Ultegra® Max Parcel Shipping Scale is a rugged and accurate scale designed to weigh packages. In addition to mailroom operations, the Ultegra Max can be used in applications in manufacturing, as well as for shipping and receiving. This scale comes with an integral display and is available in a flat top or roller top design.

### HEAVIER PACKAGES

The Ultegra Max Parcel Shipping Scale handles most daily shipping operation requirements. It can weigh packages up to 250 lbs and features 0.05 increments for razor-sharp accuracy. When using the Ultegra Max, you can rest assured it performs with Fairbanks' exacting tolerances.

### LARGER PLATFORMS

Because heavier packages are typically larger, this scale has a 21" x 21" platform. Odd-shaped and over-sized packages fit nicely on the Ultegra Max.

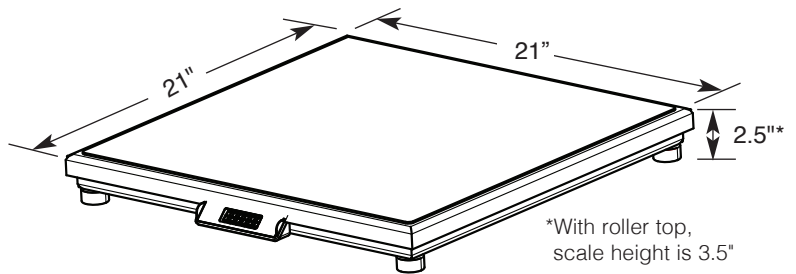

### USB CONNECTIVITY

Just about every computer purchased today comes with one or more USB ports. Fairbanks' decision to provide a USB interface for the Ultegra Max scale has substantial advantages over serial interfaces. Advantages include simple connectivity to computers and the obsolescence of internal power adapters. If required, an AC adapter accessory is offered.

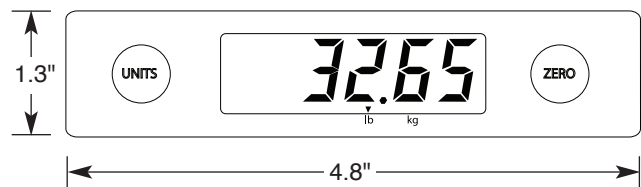

### SPECIFICATIONS

Capacity . . . . .	250 lbs (113 kg)
Division size . . . . .	0.05 lbs (0.02 kg)
Platform size . . . . .	21" x 21" x 2.5" (Flat top model) 21" x 21" x 3.5" (Roller top model)
Output . . . . .	USB (includes 6' cable)
Power requirements . . . . .	Powered through USB port (optional USB to AC adapter)
Display . . . . .	0.5" high LCD
Units . . . . .	Pounds; kilograms
Front keys . . . . .	Units, Zero
Construction . . . . .	Mild steel
Finish . . . . .	Powder coat, black
USB driver . . . . .	No driver required, device uses Windows® HID protocol
Accessories . . . . .	Remote LCD display with 1.5" characters and an 8' cable, display pillar, USB to AC adapter
Approvals . . . . .	NTEP CC# 10-055, MC# AM-5785, RoHS compliant
